

Rosa Zarate serves as the Environment, Safety & Health (ESH) Division Training Generalist from the training group, ESH-13. In this role she is the liaison between ESH Division and LANL training organizations. It is her responsibility to ensure that training needs are met and that course credit is properly documented in the Laboratory-wide documentation system, EDS. She has become an excellent resource concerning questions and issues about ESH training. Rosa began her career at the Laboratory as a student, and she has much to share with participants in the Division Student Program. She looks forward to working with the students in the capacity of the program's alternate student advisor.
